Fix first (high severity)

1. College calendar's fall 2026 withdrawal deadlines are two weeks earlier than the Registrar's (known issue, still present) (College calendar editor, with the Registrar)
2. Calendar ties fall 2026 CR/NC election to the add/drop deadline; the Registrar now allows it until the withdrawal deadline (College calendar editor, with the Registrar)
3. Civil & Environmental Engineering Graduate Handbook 2026-2027 has an outdated academic calendar: withdrawal deadlines 2 to 3 weeks early for fall and spring (Civil & Environmental Engineering graduate advising (handbook editor), with the Registrar)
4. Convocation page says "apply before March 13", but the Registrar's spring 2027 graduation application deadline is January 22 (College dean's office (convocation coordinator) and College web team, with the Registrar)

5. Convocation page gives an 8:00am ceremony time, but its own arrival, processional and end times are in the afternoon and evening (College dean's office (convocation coordinator) and College web team)
6. MSE and Mechanical Engineering pages and handbooks give drop and withdrawal rules ("ten calendar days", "midpoint of the term") that no longer match the Registrar's dates (Materials Science & Engineering advising; Mechanical Engineering undergraduate advising)
7. Eight college and department pages give an outdated rule for which grade counts when a course is repeated (Price College Associate Dean for Academic Affairs and the college web team, with MSE, Civil, ChE, BME, ECE and ME advising for their own pages and handbooks)
8. Chemical Engineering 2025-26 handbook gives two different attempt limits (known issue, still on the live PDF) (Chemical Engineering advising (Director of Undergraduate Studies))
9. ECE degree-requirement downloads: the 'CE 2024-2025' checklist is the 2021-22 one, EE catalog years are mislabeled, and 2022 plans list a discontinued course (Electrical & Computer Engineering undergraduate advising)
10. MSE policies page says students below a 3.0 GPA go on probation; the same page and the MSE handbook say 2.3, with different recovery periods (Materials Science & Engineering academic advising)
11. Mechanical Engineering flowcharts and transfer page say 'one repeat per course', contradicting the department's own repeat policy (Mechanical Engineering undergraduate advising)
12. ECE's 2017 'Policy Handbook for Undergraduate Programs' is still linked and contradicts current third-attempt and Monitoring List rules (Electrical & Computer Engineering undergraduate advising)
13. CS minor requirements on the Mechanical Engineering and college pages are outdated (3.0 GPA rule, 2021-22 handbook link, 'four minors') (College web team (majors page) and Mechanical Engineering advising (minors page))
14. College scholarships and financial-aid pages give two different PCE scholarship deadlines (February 1 and February 8) (PCE Student Services (scholarships), with the college web team)
15. Scholarships page tells transfer students to apply by December 1 for merit scholarships; Admissions and the page's newer tab say February 1 (PCE Student Services (scholarships), with the college web team)
16. GRE described as both optional and required (with minimum scores) on ChemE, Mechanical and MSE graduate admissions pages and handbooks (Graduate admissions/advising in Chemical Engineering, Mechanical Engineering, and Materials Science & Engineering)
17. MSE graduate handbook and ChemE fee-waiver form give the Duolingo minimum as 105; the University requires 110 (MSE graduate advising (handbook); ChemE graduate advising (fee-waiver form))
18. ChemE PhD minimum GPA: 3.25 'minimum acceptable' in the 2026-27 handbook vs 3.0 required / 3.3 'encouraged' on the website (Chemical Engineering graduate advising / Director of Graduate Studies)
19. Mechanical Engineering gives two sets of deadlines for the Magdiel Financial Relief Fund (Aug 6/Dec 1 vs Aug 1/Dec 10) (Mechanical Engineering scholarship committee / department web editor)
20. Mechanical Engineering advisor last-name assignments differ between the college orientation page and ME's advising page (College web team (orientation page), checked with Mechanical Engineering undergraduate advising)

21. College orientation page sends BME students to an advisor BME doesn't list and a booking link that returns 404 (College web team (orientation page), checked with BME undergraduate advising)
22. ME undergraduate advisors' emails, phones and rooms differ between the college directory and ME pages (Mechanical Engineering advising, with the College web team for the directory)
23. BME Education page lists different undergraduate advisors and graduate associate chair than BME's contact page (Biomedical Engineering web editor)
24. Mechanical Engineering: 'Book an Advising Appointment', advisor links and the Course Articulation Form are broken (Mechanical Engineering undergraduate advising, with the ME web editor)
25. ECE graduate pages: Graduate Student Coordinator, Program of Study form and Outside Member rules links all return 404 (ECE graduate advising (Graduate Student Coordinator) and ECE web editor)

Problems by site

A problem that spans several sites counts once for each. Each finding below names a suggested owner.

Admissions, costs, scholarships and financial aid

HIGH CONFLICT OWNER: PCE STUDENT SERVICES (SCHOLARSHIPS), WITH THE COLLEGE WEB TEAM

College scholarships and financial-aid pages give two different PCE scholarship deadlines (February 1 and February 8)

> “Deadline list: "February 1st - PCE General Scholarships application deadline for current and incoming students." Older tabs on the same page: "Set a deadline at least 1-2 weeks before the February 8th application deadline"; "References are due February 7th"; David Jorgensen Scholarship "Opens: December 1 Closes: February 8"; "A current student who submits a John and Marcia…”
> www.price.utah.edu/scholarships · updated 2026-10-19

> "February 8 – Scholarship deadline for John and Marcia Price College of Engineering scholarships". The same page (saved copy) also says: "For incoming freshmen, the scholarship application deadline is February 1st during their senior year of high school".
> www.price.utah.edu/financial-aid · updated 2026-09-17

> “Admissions lists "December 1" as the freshman "Merit Scholarship Consideration Deadline" and "February 1" as the "Financial Aid Priority Date". The PCE General Scholarships deadline is the college's own date, so PCE Student Services has to say which one is right. The page's newest sections, and the FAFSA date, both say February 1.”
> Official source: admissions.utah.edu/financial-aid-scholarships/scholarships/

Why it matters

A student who goes by the February 8 date (the David Jorgensen Scholarship, the current-student tab, the reference instructions, or the Financial Aid page) could submit after a February 1 deadline and lose consideration for up to 290 college and department scholarships. The 2027 cycle opens December 1, about six weeks from now.

Suggested fix

Confirm the 2027 deadline. Then delete the older duplicate tabs on /scholarships (the Incoming First-Year, Transfer and Current Student tabs and the old Application Instructions that say February 8/February 7). Make the Jorgensen close date and the reference due date match, and change the Financial Aid page's 'Dates to Remember' to the same date.

Verifier's note: The live check did not find the old current-student sentence "...application by February 8th will automatically be considered for department and college level awards". The fetch summary pointed to the newer February 1st wording instead, so cite the four February 8/7 items above rather than that sentence. On the…

HIGH CONFLICT OWNER: PCE STUDENT SERVICES (SCHOLARSHIPS), WITH THE COLLEGE WEB TEAM

Scholarships page tells transfer students to apply by December 1 for merit scholarships; Admissions and the page's newer tab say February 1

> “Deadline list: "December 1st ... Admissions application deadline for incoming first-year and transfer students to be considered for PCE merit scholarships". Older Transfer tab: "Students who apply to the University of Utah by December 1 will automatically be considered for Price College of Engineering Merit Based scholarship." Newer Transfer tab: "Incoming transfer students…”
> www.price.utah.edu/scholarships · updated 2026-10-19

> “Transfer "Priority Scholarship deadline" is February 1: "The final deadline for merit scholarship consideration is February 1." (Fall application deadline April 1.)”
> Official source: admissions.utah.edu/apply/transfer-students/

Why it matters

A transfer student who reads the December 1 date after it passes could decide they have missed merit-scholarship consideration and not apply by February 1. The same old Transfer tab also gives February 8 for department-level scholarships, which conflicts with the newer tab's February 1.

Suggested fix

In the 'Online Application and Deadlines' list, say December 1 for first-year students and February 1 for transfer students. Delete the old Transfer tab, so only the tab that says February 1 for merit and the department-level deadline remains. Fix this together with the February 1/February 8 cleanup.

HIGH CONFLICT

OWNER: GRADUATE ADMISSIONS/ADVISING IN CHEMICAL ENGINEERING, MECHANICAL ENGINEERING, AND MATERIALS SCIENCE & ENGINEERING

GRE described as both optional and required (with minimum scores) on ChemE, Mechanical and MSE graduate admissions pages and handbooks

> "The GRE is no longer required for PhD or MS admissions to the Department of Chemical Engineering." and "GRE scores are optional for all PhD and MS applicants."
> www.che.utah.edu/future-graduate-students/ · updated 2026-09-24

> “The 'Graduate Handbook' link on the page above opens this file (checked live today): "GRE scores are required from all applicants, regardless of background or previous degrees. The minimum GRE score ... is 155 for master's applicants and 160 for PhD applicants"”
> www.che.utah.edu/wp-content/uploads/2026/08/Grad-Handbook-2026-2027.pdf · updated 2026-08-24

> "In a normal year, we require a score of 80th percentile or higher on the GRE Quantitative section ... the GRE exam is optional for 2021 and 2022 admission"
> www.mech.utah.edu/grads/admissions/frequently-asked-questions-graduate/ · updated 2026-04-09

> "The GRE is optional", yet the same page says the application is not complete "until the online application is submitted and the Admissions Office has received your official GRE test scores and application fee."
> www.mech.utah.edu/grads/admissions/application-deadlines-and-instructions/ · updated 2026-08-13

> "GRE Score (Not required, but highly recommended by department)" and also "The Department requires applicants GRE score to be a minimum combined score of 300 on the quantitative and verbal sections; and a minimum score of 3.0 on the writing section."
> mse.utah.edu/admissions/ · updated 2026-10-19

> “Checked live today: GRE scores "are not required, but highly recommended. There is no minimum score requirement"”
> mse.utah.edu/wp-content/uploads/sites/34/2025/12/Graduate-Handbook-2025-v2.pdf · updated 2025-12-19

> “The Graduate School sets no GRE requirement: "Each graduate program sets its own application deadlines and requirements." Its minimum is "A 3.0 or higher cumulative GPA in the undergraduate career". Each department's own current policy decides, so each department has to pick one.”
> Official source: gradschool.utah.edu/future-students/admissions.php

Why it matters

Applicants for Fall 2027 (ChemE priority deadlines in December and January, Mechanical on January 1, MSE on January 15) may pay for and schedule a GRE they don't need. Others may decide not to apply because they think they fall below a 155/160, 80th-percentile or 300 minimum that the department's main page says doesn't exist.

Suggested fix

ChemE: update the GRE section of the 2026-27 Graduate Handbook to match the website (optional). Mechanical: rewrite the FAQ answer 'Is the GRE Exam Required?' and the retake/low-score answers, and remove 'official GRE test scores' from the completeness note on the deadlines page. MSE: delete the 300/3.0 minimum sentence, or state it as a recommendation, so it matches the handbook.

HIGH OUTDATED

OWNER: MSE GRADUATE ADVISING (HANDBOOK); CHEME GRADUATE ADVISING (FEE-WAIVER FORM)

MSE graduate handbook and ChemE fee-waiver form give the Duolingo minimum as 105; the University requires 110

> “Checked live today: "The minimum scores are 80 internet-based test (iBT) on the ... (TOEFL), a band score of 6.5 on the ... (IELTS), or a score of 105 on Duolingo."”
> mse.utah.edu/wp-content/uploads/sites/34/2025/12/Graduate-Handbook-2025-v2.pdf · updated 2025-12-19

> "Has an approved English proficiency exam score that exceeds the minimum requirements for admission (TOEFL > 80, IELTS > 6.5, Duolingo > 105)."
> www.che.utah.edu/grad-application-fee-waiver-form/ · updated 2025-08-22

> “The department's own admissions page (live today) correctly says "DuoLingo: minimum score of 110". ChemE's main page also says 110.”
> mse.utah.edu/admissions/ · updated 2026-10-19

> “Graduate applicants need TOEFL "80 or higher", IELTS "6.5 or higher", Duolingo "110 or higher".”
> Official source: admissions.utah.edu/apply/international/english-proficiency/

Why it matters

An international applicant with a Duolingo score of 105–109 who reads the MSE handbook or the ChemE waiver form would think they qualify. They could pay the fee and apply, and the application would not be evaluated.

Suggested fix

Change 105 to 110 in the MSE Graduate Handbook (and its next edition) and on the ChemE fee-waiver form, or link to the Admissions English-proficiency page instead of repeating the numbers.

HIGH CONFLICT

OWNER: CHEMICAL ENGINEERING GRADUATE ADVISING / DIRECTOR OF GRADUATE STUDIES

ChemE PhD minimum GPA: 3.25 'minimum acceptable' in the 2026-27 handbook vs 3.0 required / 3.3 'encouraged' on the website

> "A minimum undergraduate GPA of 3.0 (on a 4.0 scale) is required for an application to be evaluated. For applicants to the PhD program, a minimum undergraduate GPA of 3.3 is encouraged." (saved copy; page live today with unchanged admissions text)
> www.che.utah.edu/future-graduate-students/ · updated 2026-09-24

> “Checked live today: "The minimum acceptable undergraduate GPA for the Chemical Engineering PhD program is 3.25."”
> www.che.utah.edu/wp-content/uploads/2026/08/Grad-Handbook-2026-2027.pdf · updated 2026-08-24

> “The Graduate School minimum is "A 3.0 or higher cumulative GPA in the undergraduate career". Departments may set higher bars, so ChemE has to say whether 3.25 is a hard minimum for the PhD.”
> Official source: gradschool.utah.edu/future-students/admissions.php

Why it matters

A PhD applicant with a 3.0–3.24 GPA is told by the website that they qualify (3.3 only 'encouraged') and by the handbook that they don't. That is an eligibility rule for the Fall 2027 cycle, which has a December 15 international priority deadline.

Suggested fix

Decide the PhD GPA rule and put the same wording on the Future Graduate Students page, the Masters page and the handbook.

HIGH CONFLICT

OWNER: MECHANICAL ENGINEERING SCHOLARSHIP COMMITTEE / DEPARTMENT WEB EDITOR

Mechanical Engineering gives two sets of deadlines for the Magdiel Financial Relief Fund (Aug 6/Dec 1 vs Aug 1/Dec 10)

> "APPLICATION DEADLINES: AUGUST 6 and DECEMBER 1." Also: "All undergraduate scholarships can be found by logging into the scholarship system https://utah.academicworks.com/ ... All scholarships are updated near February 1st"
> www.mech.utah.edu/academics/undergraduate/financial-aid-scholarships/ · updated 2021-09-28

> "APPLICATION DEADLINES: AUGUST 1 & DECEMBER 10"
> www.mech.utah.edu/grads/financial-information/magdiel-application/ · updated 2025-12-08

> “The college now routes applications through Scholarship Universe: "Submit the PCE General Scholarships application in Scholarship Universe by February 1st"”
> www.price.utah.edu/scholarships · updated 2026-10-19

> “The application page itself, which is newer, says August 1 and December 10. The department should confirm which is right.”
> Official source: www.mech.utah.edu/grads/financial-information/magdiel-application/

Why it matters

Suggested fix

The next deadline falls in December (either December 1 or December 10). A student in financial hardship who goes by the wrong date could miss emergency aid. The 2021 page also sends students to AcademicWorks, while the college uses Scholarship Universe.

Confirm the Magdiel dates and put the same dates on both pages. Update or retire the 2021 undergraduate Financial Aid & Scholarships page, including the AcademicWorks link and the Ross-Dauncey loan details, which the separate loan application page now covers.

Verifier's note: Small addition: the undergraduate page's Third Party Scholarships link uses the old coe.utah.edu domain (coe.utah.edu/students/current/scholarships/third_party_scholarships/).

Academic calendar, events and recurring programs

HIGH CONFLICT OWNER: COLLEGE CALENDAR EDITOR, WITH THE REGISTRAR

College calendar's fall 2026 withdrawal deadlines are two weeks earlier than the Registrar's (known issue, still present)

> "Fall 2026 Full Term - Last day to withdraw from classes", listed on Friday, October 30, 2026
> www.price.utah.edu/calendar?trumbaEmbed=view%3Devent%26eventid%3D199983946

> "Fall 2026 Second Half - Last day to withdraw from classes", listed on Friday, November 13, 2026
> www.price.utah.edu/calendar?trumbaEmbed=view%3Devent%26eventid%3D199983984

> "Fall 2026 First Half - Last day to withdraw from classes", listed on Friday, September 18, 2026 (already passed)
> www.price.utah.edu/calendar?trumbaEmbed=view%3Devent%26eventid%3D199983973

> "Fall 2026 - House Bill 60 registration", listed on Tuesday, August 18, 2026 (already passed)
> www.price.utah.edu/calendar?trumbaEmbed=view%3Devent%26eventid%3D199983909

> “Registrar Fall 2026 ("Last Updated: 7/20/26"): "Last day to withdraw from classes and elect CR/NC": Friday, November 13 (semester-length), Friday, October 2 (first half), Friday, November 27 (second half). House Bill 60 registration: "Wednesday, August 19".”
> Official source: registrar.utah.edu/academic-calendars/fall2026.php

Why it matters

The full-term entry says October 30, nine days from now, but students actually have until November 13. A student who trusts the calendar may withdraw in a hurry (and get a W and the tuition charge) or think they missed the deadline. The assistant answers from this calendar, so it repeats the wrong date. The spring 2027 entries already match the Registrar, so only fall 2026 is affected.

Suggested fix

Move the fall 2026 withdrawal entries to Nov 13 (full term) and Nov 27 (second half), and the past first-half entry to Oct 2. Retitle them "Last day to withdraw from classes and elect CR/NC" and change House Bill 60 to Aug 19. These entries look like they came from an earlier draft of the Registrar's calendar, so re-import fall 2026 from the current (7/20/26) version.

HIGH CONFLICT OWNER: COLLEGE CALENDAR EDITOR, WITH THE REGISTRAR

Calendar ties fall 2026 CR/NC election to the add/drop deadline; the Registrar now allows it until the withdrawal deadline

> "Fall 2026 Second Half - Last day to add, drop (delete), elect CR/NC, or audit classes", listed on Friday, October 23, 2026
> www.price.utah.edu/calendar?trumbaEmbed=view%3Devent%26eventid%3D199983983

> "Fall 2026 Full Term - Last day to add, drop (delete), elect CR/NC, or audit classes", listed on Friday, September 4, 2026
> www.price.utah.edu/calendar?trumbaEmbed=view%3Devent%26eventid%3D199983943

> "Fall 2026 First Half - Last day to add, drop (delete), elect CR/NC, or audit classes", listed on Friday, August 28, 2026
> www.price.utah.edu/calendar?trumbaEmbed=view%3Devent%26eventid%3D199983971

> “Registrar Fall 2026: the add/drop rows read "Last day to add, drop (delete), or audit classes", and CR/NC is under "Last day to withdraw from classes and elect CR/NC": Nov 13 (full term), Nov 27 (second half), Oct 2 (first half).”

> Official source: registrar.utah.edu/academic-calendars/fall2026.php

Why it matters

Second-half students will read October 23, two days from now, as their last chance to elect CR/NC, when they have until November 27. Full-term students checking today see the September 4 CR/NC date as passed, though they can still elect CR/NC until November 13. Students may give up a grading option they still have.

Suggested fix

Remove "elect CR/NC" from the three fall 2026 add/drop titles and add it to the corrected withdrawal entries, matching the Registrar's wording. This is the same re-import as the withdrawal-date fix.

HIGH CONFLICT

OWNER: CIVIL & ENVIRONMENTAL ENGINEERING GRADUATE ADVISING (HANDBOOK EDITOR), WITH THE REGISTRAR

Civil & Environmental Engineering Graduate Handbook 2026-2027 has an outdated academic calendar: withdrawal deadlines 2 to 3 weeks early for fall and spring

> “Page 11, term length: "Last day to withdraw from classes | Friday, October 30 | Friday, March 12"; first half: "Friday, September 18 | Friday, February 5"; second half: "Friday, November 13 | Friday, April 2"”
> www.civil.utah.edu/wp-content/uploads/2026/10/Graduate_Handbook_2026-2027_0819_-ADA.pdf · updated 2026-10-12 (PDF modified date)

> "Last day to add, drop, audit, and elect CR/NC | Friday, September 4 | Friday, January 22"; "House Bill 60 registration | Tuesday, August 18"; spring optional midterm grading "Mon.-Thurs., March 1-11"
> www.civil.utah.edu/wp-content/uploads/2026/10/Graduate_Handbook_2026-2027_0819_-ADA.pdf · updated 2026-10-12 (PDF modified date)

> “Registrar Spring 2027 (Last Updated October 6, 2026): "Last day to withdraw/elect CR/NC": Friday, April 2 (semester), Friday, February 19 (first half), Friday, April 16 (second half). Fall 2026 (7/20/26): Nov 13 / Oct 2 / Nov 27. HB60: Wednesday, August 19. Optional midterm grading: Feb 22-March 4.”
> Official source: registrar.utah.edu/academic-calendars/spring2027.php

Why it matters

Graduate students using their department handbook would think the spring 2027 full-term withdrawal and CR/NC deadline is March 12, when it is actually April 2. The handbook was posted this month, so it looks current. The table appears to be the same superseded draft the college calendar uses.

Suggested fix

Replace the page 11 table with the Registrar's current fall 2026, spring 2027 and summer 2027 calendars, or replace the table with a link to registrar.utah.edu/academic-calendars so it can't go stale. Then repost the PDF.

Verifier's note: Page 10 of the handbook already links to registrar.utah.edu/academic-calendars, but the page 11 table contradicts it. Spring first-half add/drop (Jan 15) and spring HB60 (Jan 5) do match the Registrar, so only the rows named in the finding are wrong.

HIGH CONFLICT

OWNER: COLLEGE DEAN'S OFFICE (CONVOCATION COORDINATOR) AND COLLEGE WEB TEAM, WITH THE REGISTRAR

Convocation page says "apply before March 13", but the Registrar's spring 2027 graduation application deadline is January 22

> "Convocation Ceremony Date: Friday, May 7, 2027 ... Make sure to apply before March 13 to ensure you are listed in the program!"
> www.price.utah.edu/graduation · updated 2026-10-01 (site metadata)

> “Also mixes years: links a "2026 Graduation Page" and says recognition "will be given to their 2026 graduating students" next to 2027 text.”
> www.price.utah.edu/graduation · updated 2026-10-01 (site metadata)

> “Registrar Spring 2027: "Deadline to apply for graduation | Friday, January 22". The college calendar also lists "Spring 2027 - Deadline to apply for graduation" on January 22, 2027.”

> Official source: registrar.utah.edu/academic-calendars/spring2027.php

Why it matters

A May 2027 graduate reading the college's own convocation page could wait until March to apply for graduation and miss the Registrar's deadline by seven weeks. March 13, 2027 is a Saturday during spring break, while March 13, 2026 was a Friday, so the date looks carried over from last year.

Suggested fix

State the Registrar's deadline (Friday, January 22, 2027) and link to it. If March 13 is only the cutoff for appearing in the printed program, say that explicitly and use a correct 2027 date. Update the remaining 2026 references.

Verifier's note: The page frames March 13 as the cutoff for appearing in the printed program, not as the Registrar's deadline. The Registrar's graduation page showed the spring 2026 deadline as January 16, 2026, so March 13 looks like a college program cutoff carried over from 2026 (it falls on a Saturday in spring break in 2027)…

HIGH CONFLICT

OWNER: COLLEGE DEAN'S OFFICE (CONVOCATION COORDINATOR) AND COLLEGE WEB TEAM

Convocation page gives an 8:00am ceremony time, but its own arrival, processional and end times are in the afternoon and evening

> "Date: Friday, May 7, 2027 | Location: Jon Huntsman Event Center | Ceremony Time: 8:00am"
> www.price.utah.edu/graduation · updated 2026-10-01 (site metadata)

> "arrive at the northeast corner entrance of the Central Garage beginning at 3:30pm"; "processional ... can begin promptly at 4:45pm"; "Convocation is expected to conclude at 7:00pm"
> www.price.utah.edu/graduation · updated 2026-10-01 (site metadata)

> "University of Utah Commencement is TBD at the Jon Huntsman Event Center"
> www.price.utah.edu/graduation · updated 2026-10-01 (site metadata)

> “Registrar Spring 2027: "University Commencement & Convocation | Thursday-Friday, May 6-7". The Registrar does not give the college's ceremony time, so the college must confirm whether it is morning or evening.”
> Official source: registrar.utah.edu/academic-calendars/spring2027.php

Why it matters

Graduates and families plan travel around this page. One version has them arriving around 8am and the other at 3:30pm, so some will be at the wrong time, and the page says leaving early is not permitted. "Commencement is TBD" also contradicts the Registrar's published May 6-7 dates.

Suggested fix

Confirm the 2027 ceremony time and make the header, arrival, processional and end times agree. Replace "Commencement is TBD" with the Registrar's May 6-7, 2027 dates, or with the university ceremony's date and time once commencement.utah.edu publishes them.

Verifier's note: The header also lists 'Student Check-in: TBA', 'Procession begins: TBA' and 'Recessional concludes: TBA', which contradicts the specific times in the body as well.

HIGH CONFLICT

OWNER: MATERIALS SCIENCE & ENGINEERING ADVISING; MECHANICAL ENGINEERING UNDERGRADUATE ADVISING

MSE and Mechanical Engineering pages and handbooks give drop and withdrawal rules ("ten calendar days", "midpoint of the term") that no longer match the Registrar's dates

> "Student may drop any class without penalty or permission during the first ten calendar days of the term." ... "Beginning the eleventh calendar day and continuing through the midpoint of the term, students may withdraw" (in both undergraduate and graduate sections)
> mse.utah.edu/policies/ · updated 2026-04-03 (site metadata)

> “p.12: "drop any class without penalty or permission during the first ten calendar days of the term"; withdraw "continuing through the midpoint of the term"”

> mse.utah.edu/wp-content/uploads/sites/34/2025/12/MSE-Handbook-2025-Final-v2.pdf · updated Undergraduate Handbook 2025-2026, "UPDATED SEPTEMBER 2025"
> "p.32: "drop any class without penalty or permission during the first ten calendar days of the term"; withdraw "through the midpoint of the term""
>
> mse.utah.edu/wp-content/uploads/sites/34/2025/12/Graduate-Handbook-2025-v2.pdf · updated "Last Revised: March 31, 2025"

> "You may drop full semester length courses through the tenth calendar day of the term. After that point, you are allowed to withdraw from classes"
> www.mech.utah.edu/academics/undergraduate/undergrad-faq/ · updated 2026-01-28 (site metadata)

> "Fall 2026: classes begin Monday, August 24; "Last day to add, drop (delete), or audit classes" is Friday, September 4 (12th calendar day); withdrawal is allowed until Friday, November 13, well past the term's midpoint (classes end December 10). Spring 2027: Jan 11 start, add/drop Jan 22, withdraw April 2."
> Official source: registrar.utah.edu/academic-calendars/fall2026.php

Why it matters

A student who wants to drop a class on day 11 or 12 would think it is too late, take a W and pay tuition for a class they could have dropped free. A student who reads "midpoint" would think withdrawal closed in mid-October when it is open until November 13.

Suggested fix

Replace the day-count and midpoint rules with "by the published add/drop and withdrawal deadlines" and link to the Registrar's academic calendar, as the college's Semester Guidelines page already does. Update the MSE policies page and both MSE handbooks, and the Mechanical Engineering FAQ.

Verifier's note: Both the MSE policies page ('Check the academic calendar for specific add, drop, and withdrawal dates') and the Mechanical Engineering FAQ already link to the Registrar's calendar. That reduces the risk somewhat but does not fix the wrong rule stated in the text.

Advising, people and contact information

HIGH CONFLICT

OWNER: COLLEGE WEB TEAM (ORIENTATION PAGE), CHECKED WITH MECHANICAL ENGINEERING UNDERGRADUATE ADVISING

Mechanical Engineering advisor last-name assignments differ between the college orientation page and ME's advising page

> "- Ben Danh (Last Name A-Cl) - Vanessa Pei (Last Names Co-G) - Bianca Reyes (Last Names H-Li) - Rheannon Burnside (Last Name Lo-Pe) - Any Mechanical Engineering advisor (Last Name Pf-Sc)"
> www.price.utah.edu/orientation-and-registration · updated 2026-07-28

> "Last Names A – B : Ben Danh … Last Names C – Fi : Vanessa Pei … Last Names Fj – Ki : Bianca Reyes … Last Names Mi – Sc : Peter Susalla"
> www.mech.utah.edu/undergraduate-advising/ · updated 2026-10-01

> "Rheannon Burnside Academic Specialist … Assists the department with administering the undergraduate program."
> www.mech.utah.edu/directory/staff/ · updated 2026-08-03

> "Last Names Kj – Me : Students with the last names Kj-Me can email Christine Nguyen … Last Names Se – Z : McKenna Jensen (she/her)"
> Official source: www.mech.utah.edu/undergraduate-advising/

Why it matters

Incoming students use the orientation page to pick their first advisor. Under the college's ranges, a student named Clark goes to Danh (ME says Pei), Gomez goes to Pei (ME says Reyes), Lee goes to Reyes (ME says Nguyen), Lopez goes to Burnside, who is not listed as an advisor on any ME page, and Peterson goes to 'any advisor'

Suggested fix

Copy ME's current six ranges into the orientation page (A–B Danh, C–Fi Pei, Fj–Ki Reyes, Kj–Me Nguyen by email, Mi–Sc Susalla, Se–Z Jensen). Better, link to ME's advising page instead of keeping a second copy.

(ME says Susalla). The college page also says 'one of our four Mechanical Advisors' but lists six lines. Both pages were confirmed live on 2026-10-21.

Verifier's note: The 'Peterson' example is wrong. 'Pe' falls inside the college's Lo-Pe range (Burnside), not Pf-Sc; a name like 'Phillips' shows the 'any advisor' line instead. Also, the college page tells transfer students to pick an advisor by last name, while first-year students are sent to ME's orientation live sessions, so…

HIGH CONFLICT

OWNER: COLLEGE WEB TEAM (ORIENTATION PAGE), CHECKED WITH BME UNDERGRADUATE ADVISING

College orientation page sends BME students to an advisor BME doesn't list and a booking link that returns 404

> "Maya Martinez (A-J) Anna Roberts (K-Z). The 'Maya Martinez' link goes to https://www.bme.utah.edu/maya/, which returned HTTP 404 on 2026-10-21."
>
> www.price.utah.edu/orientation-and-registration · updated 2026-07-28

> "Erin Kurth Academic Advisor Last names A-L … Anna Roberts Academic Advisor Last names M-Z"
>
> www.bme.utah.edu/undergraduate-current-students/ · updated 2026-09-28

> "Academic Advisors: Erin Kurth Students last names A-L Anna Roberts Students last names M-Z"
>
> www.bme.utah.edu/contact-us/ · updated 2026-09-25

> "Erin Kurth Academic Advisor Last names A-L … Anna Roberts Academic Advisor Last names M-Z"
>
> Official source: www.bme.utah.edu/undergraduate-current-students/

Why it matters

Incoming BME students with last names A–J click a dead booking link for an advisor who isn't on any BME page or in the college directory. Students with K or L are sent to Anna Roberts, but BME assigns them to Erin Kurth. All three pages and the 404 were confirmed live.

Suggested fix

Replace the BME lines with Erin Kurth (A–L, https://www.bme.utah.edu/erin/) and Anna Roberts (M–Z, https://www.bme.utah.edu/anna-2/).

HIGH CONFLICT

OWNER: MECHANICAL ENGINEERING ADVISING, WITH THE COLLEGE WEB TEAM FOR THE DIRECTORY

ME undergraduate advisors' emails, phones and rooms differ between the college directory and ME pages

> "McKenna Kay Jensen … Phone: 801-581-6441 … Email: u0867665@utah.edu … Office: 1550 MEK … Bianca Reyes … Email: u1095646@utah.edu … Office: 1550 MEK"
>
> www.price.utah.edu/academic-advisors · updated 2026-06-04

> "McKenna Jensen Academic Advisor Phone: (801) 581-8977 Email: McKenna.Jensen@utah.edu Office: 1560C MEK … Bianca Reyes … Email: adriana.reyes@utah.edu Office: 1560D MEK"
>
> www.mech.utah.edu/directory/staff/ · updated 2026-08-03

> "Ben Danh (he/him) Email. The 'Email' button opens mailto:bdanh@sa.utah.edu, but the staff directory and the college directory both list ben.danh@utah.edu."
>
> www.mech.utah.edu/undergraduate-advising/ · updated 2026-10-01

> "Ben Danh Academic Advisor Pronouns: he/him Phone: (801) 581-8234 Email: ben.danh@utah.edu Office: 1560A MEK"
>
> Official source: www.mech.utah.edu/directory/staff/

Why it matters

Suggested fix

Students emailing or visiting their assigned advisor get different addresses, phone numbers and rooms depending on which page they use: two emails and a phone for Jensen, two emails for Reyes, rooms 1550 vs 1560C/1560D MEK. Ben Danh's email button on ME's own advising page goes to a third address. Peter Susalla is listed in 'MEK 1560' by the college but '1560D MEK' by ME. All confirmed live.

Update the college directory entries for Jensen, Reyes and Susalla from ME's staff directory. Change Danh's email button on the ME advising page to ben.danh@utah.edu, or confirm which address he uses and update every page.

Verifier's note: The u-number@utah.edu addresses in the college directory may well forward to the person, so the Jensen and Reyes email differences are probably lower-risk than stated. The phone, the rooms and Danh's @sa.utah.edu button are the actionable parts.

HIGH CONFLICT OWNER: BIOMEDICAL ENGINEERING WEB EDITOR

BME Education page lists different undergraduate advisors and graduate associate chair than BME's contact page

> “Associate Chair, Graduate Studies: Alan (Chuck) Dorval … Academic Advisors, Undergraduate Program: Heather Palmer Erica Fearnley Premajor Advisor: Kelly W. Broadhead”
> www.bme.utah.edu/education/ · updated 2025-07-29

> “Associate Chair, Graduate Studies: Robby Bowles … Academic Advisors: Erin Kurth Students last names A-L Anna Roberts Students last names M-Z”
> www.bme.utah.edu/contact-us/ · updated 2026-09-25

> “Prof. Kelly Broadhead Director of Undergraduate Operations”
> www.bme.utah.edu/undergraduate-current-students/ · updated 2026-09-28

> “Academic Advisors: Erin Kurth Students last names A-L Anna Roberts Students last names M-Z”
> Official source: www.bme.utah.edu/contact-us/

Why it matters

BME's main Education landing page names two undergraduate advisors and a graduate associate chair who differ from the department's contact page, student resources page and the college directory. A student or parent starting from Education would contact the wrong people. Confirmed live.

Suggested fix

Update the Education page's contact block to match the Contact Us page, or replace it with a link to that page.

Verifier's note: The Education page also names an outdated-looking graduate advisor ('Academic Advisor, Graduate Program: Laura L. Olsen') that the finding leaves out, and this person should be checked too.

Academic policies, requirements and degree plans

HIGH CONFLICT
OWNER: PRICE COLLEGE ASSOCIATE DEAN FOR ACADEMIC AFFAIRS AND THE COLLEGE WEB TEAM, WITH MSE, CIVIL, CHE, BME, ECE AND ME ADVISING FOR THEIR OWN PAGES AND HANDBOOKS

Eight college and department pages give an outdated rule for which grade counts when a course is repeated

> "When a Price College of Engineering class is taken more than once, only the grade for the second attempt is counted." ECE's 3rd Attempt Petition page links here as its "Repeat Policy".
> www.price.utah.edu/repeating-courses · updated 2023-06-29 (saved copy; the live page shows no date)

> "only the grade for the second attempt is counted" … "For repeated courses, the University of Utah's grade replacement policy applies; only the most recent grade is used in GPA calculations"
> mse.utah.edu/policies/ · updated 2026-04-03

> "When a College of Engineering class is taken more than once, only the grade for the second attempt is counted."
> mse.utah.edu/wp-content/uploads/sites/34/2025/12/MSE-Handbook-2025-Final-v2.pdf · updated MSE Handbook 2025 (PDF p.12)

> "The last grade received is used to calculate the GPA and grades from previous attempts of the same course are not included in the GPA."
> www.civil.utah.edu/undergrad/current/policies/ · updated 2026-05-13

> “p.10 item 9: "only the grade for the latest attempt is counted"; p.23 Repeating Courses: "only the grade for the second attempt is counted""
> www.che.utah.edu/wp-content/uploads/2026/08/CH-EN-UG-Guide-Handbook-2025-2026.pdf · updated Catalog Year 2025-2026, last revised April 2026

> "a technical course required for the degree may be repeated only once, and the second grade received will be counted"
> www.bme.utah.edu/wp-content/uploads/2026/03/UG_Handbook_2026.pdf · updated BME Undergraduate Handbook 2026/27 (posted March 2026), PDF p.15

> “Policy 3.0.0: "When a College of Engineering class is taken more than once, only the grade for the second attempt is counted.""
> www.ece.utah.edu/policy-handbook/ · updated 2017-11-17

> "One repeat per course (second grade counts, total number of repeats limited)". The same note appears on 4Y-Eng-Calc-CY-26.pdf and ME-EN-1010-Start-4-YR-Trad-Calc-CY26.pdf.
> www.mech.utah.edu/wp-content/uploads/2026/07/4Y-Trad-Calc-CY-26.pdf · updated Titled "Mechanical Engineering 2026-27", footer "Revised March 2025"

> “General Catalog, Repeated Courses: "The best grade received is used to compute your grade point average." The college's Semester Guidelines (price.utah.edu/semester-guidelines) say: "When a Price College of Engineering course is repeated on or after August 1, 2026, the highest earned grade in the course is used to compute the student's…”
> Official source: catalog.utah.edu/pages/w3tb7kgsbzhGxVW190jv

Why it matters

A student deciding whether to retake a course, or checking a 2.3 to 2.5 GPA threshold for good standing, major status or graduation, will calculate the GPA with the wrong rule. The assistant can cite any of these pages.

Suggested fix

Retire price.utah.edu/repeating-courses or redirect it to the Semester Guidelines, and point ECE's "Repeat Policy" link there. On each department page and in each handbook and flowchart, replace the sentence with the college wording, including the August 1, 2026 effective date. Until the PDFs are reissued, post an errata note beside each one.

Verifier's note: Semester Guidelines also say: "For a course repeated before August 1, 2026, the most recent grade earned is used to compute the student's GPA." So the old wording is still right for repeats before that date. The real problem is that these pages give no cutoff date. The live pages for price.utah.edu/repeating-courses,…

HIGH CONFLICT OWNER: CHEMICAL ENGINEERING ADVISING (DIRECTOR OF UNDERGRADUATE STUDIES)

Chemical Engineering 2025-26 handbook gives two different attempt limits (known issue, still on the live PDF)

> “Item 11: "After three unsuccessful attempts of any required math, science or engineering course, students will be dismissed from the Chemical Engineering Major.""
> www.che.utah.edu/wp-content/uploads/2026/08/CH-EN-UG-Guide-Handbook-2025-2026.pdf · updated Catalog Year 2025-2026, last revised April 2026 (p.10)

> "After two unsuccessful attempts of any required math, science or engineering course, students will be dismissed… a third attempt must be approved by the Director of Undergraduate Studies"
> www.che.utah.edu/wp-content/uploads/2026/08/CH-EN-UG-Guide-Handbook-2025-2026.pdf · updated Catalog Year 2025-2026, last revised April 2026 (p.23)

> "For the first and second attempts, there are no restrictions. A third attempt requires department approval… A fourth attempt requires Associate Dean approval". Page 23 fits this structure. Page 10 does not mention any approval.
> Official source: www.price.utah.edu/semester-guidelines

Why it matters

A student with two failed attempts cannot tell whether they have been dismissed or may petition for a third attempt. Page 10 reads as if a third attempt needs no approval.

Suggested fix

Make p.10 item 11 match p.23 and the college's third- and fourth-attempt process. Fix the matching grade wording (p.10 item 9 says "latest attempt", p.23 says "second attempt"; see the repeat-grade finding). Reissue the PDF linked from /ugguide.

Verifier's note: The ellipsis in the p.23 quote leaves out a qualifier. The full sentence is: "When non-academic emergencies take place, a third attempt must be approved by the Director of Undergraduate Studies, Michael Nigra." So p.23 allows a third attempt only for non-academic emergencies. That is narrower than the college's…

HIGH OUTDATED OWNER: ELECTRICAL & COMPUTER ENGINEERING UNDERGRADUATE ADVISING

ECE degree-requirement downloads: the 'CE 2024-2025' checklist is the 2021-22 one, EE catalog years are mislabeled, and 2022 plans list a discontinued course

> “Under the "2024-2025 Catalog Year" heading, the link "CE Degree Checklist 2024-2025" opens /wp-content/uploads/2021/10/BS-CE-Checklist-Updated-2021.docx.pdf”
> www.ece.utah.edu/ce-requirements/ · updated 2026-06-01

> "Computer Engineering Degree 2021-2022" … "Pre-Major GPA: 3.0 or higher" … "Total degree hours: 127-136" (also lists ECE 2240/2245 and LEAP 1501)
> www.ece.utah.edu/wp-content/uploads/2021/10/BS-CE-Checklist-Updated-2021.docx.pdf · updated uploaded 2021-10

> "2026-2027 Catalog Year *NEW*" lists "EE Degree Checklist: 2025-2026". There is no 2025-26 heading and no 2026-27 checklist. "Not-Calc-Ready Plan (2024-2025)" opens a 2022 file. Note: "*ECE 2240/2245 is no longer available at the U of U."
> www.ece.utah.edu/ee-requirements/ · updated 2026-09-25

> “Sample 4 Year Plan schedules "ECE 2240/2245" (Circuits & Systems II + Lab) and "Black outlines represent TE credits (need 33)". The "Part-Time Student" plan (EE_part-time_calc-ready.pdf, 2022) has the same issue.”
> www.ece.utah.edu/wp-content/uploads/2022/05/EE_college_algebra_summers.pdf · updated uploaded 2022-05

> “SLCC plans read "DEGREE PLAN: 2022-2023". The CE SLCC plans say "Admission: 3.0 GPA in Pre-Major; 2.5 GPA Overall U OF U"; the EE plans say "2.8 GPA & PASSING CALCULUS GRADE".”
> www.ece.utah.edu/transfer-student-admissions-and-resources/ · updated 2026-04-01

> “ECE's current checklists (2025-26 EE, 2026-27 CE) say "Total degree hours: 120 minimum", and the EE page notes that ECE 2240/2245 "is no longer available at the U of U." The General Catalog is the final source for each catalog year.”
> Official source: www.ece.utah.edu/wp-content/uploads/2026/06/CE-checklist_-2026-2027-.docx.pdf

Why it matters

A CE student on the 2024-25 catalog would plan against 2021-22 requirements: different courses, 127-136 credits instead of 120, and a different admission GPA. EE students cannot tell which checklist matches their catalog year, and transfer students see conflicting admission GPAs.

Suggested fix

Link the real 2024-25 CE checklist, or the catalog's 2024-25 requirements. Put the 2025-26 EE checklist under a 2025-26 heading and add a 2026-27 checklist. Replace or retire the 2022 not-calc-ready, part-time and SLCC plans. State the current admission criteria in one place.

Verifier's note: The CE SLCC plans (3.0 pre-major GPA) and the EE SLCC plans (2.8 GPA and a passing calculus grade) are for different programs. Their different admission GPAs are not a conflict in themselves; the real problem is that both are 2022-23 plans. The EE note gives a remedy for ECE 2240/2245: 'Students in this catalog year…

HIGH CONFLICT OWNER: MATERIALS SCIENCE & ENGINEERING ACADEMIC ADVISING

MSE policies page says students below a 3.0 GPA go on probation; the same page and the MSE handbook say 2.3, with different recovery periods

> "Students below a 3 GPA will be placed on probation." … "Students must return to good standing (≥2.3 GPA) within two consecutive semesters or may be removed from the program."
> mse.utah.edu/policies/ · updated 2026-04-03

> "Students who fall below the GPA of 2.3 will be put on probation. Students on probation must raise their cumulative GPA above a 2.3 within 12 months"
> mse.utah.edu/wp-content/uploads/sites/34/2025/12/MSE-Handbook-2025-Final-v2.pdf · updated MSE Handbook 2025 (PDF p.12)

> “No higher source. The same policies page also says "A minimum cumulative GPA of 2.3 is required for all courses applied to the degree", which suggests "3" is a typo for 2.3.”
> Official source: mse.utah.edu/policies/

Why it matters

A student with a 2.5 to 2.9 GPA could believe they are on probation, or the reverse. The deadline to recover (two semesters or 12 months) also differs, and that decides removal from the program.

Suggested fix

Correct the probation threshold on the policies page and use one recovery period on both the page and the handbook.

Verifier's note: The live policies page shows no last-updated date; 2026-04-03 comes from the saved copy.

HIGH CONFLICT OWNER: MECHANICAL ENGINEERING UNDERGRADUATE ADVISING

Mechanical Engineering flowcharts and transfer page say 'one repeat per course', contradicting the department's own repeat policy

> "students must earn a C or better in major courses, with only one repeat allowed per course. Students are also limited on the total number of courses they can repeat."
> www.mech.utah.edu/academics/undergraduate/future-students/future-transfer-students/ · updated 2026-02-06

> "One repeat per course (second grade counts, total number of repeats limited)"
> www.mech.utah.edu/wp-content/uploads/2026/07/4Y-Trad-Calc-CY-26.pdf · updated "Mechanical Engineering 2026-27", footer "Revised March 2025"

> “Same note: "One repeat per course (second grade counts, total number of repeats limited)". It is also on ME-EN-1010-Start-4-YR-Trad-Calc-CY26.pdf.”
> www.mech.utah.edu/wp-content/uploads/2026/07/4Y-Eng-Calc-CY-26.pdf · updated 2026-07-08 (saved copy)

> "The University of Utah allows two attempts without advisor approval. A third attempt must be requested through this form." "For courses repeated on or after August 1st, 2026, the highest grade will be calculated"
> Official source: www.mech.utah.edu/academics/undergraduate/current-students/department-policies/

Why it matters

An incoming transfer student or a current student who fails a course twice is told no more attempts are possible, so they may not petition for the third attempt the department actually allows. The flowchart also states the old grade rule.

Suggested fix

Replace the note on all CY26 flowcharts (and reissue them with a current revision date). Update the transfer page to match the Department Policies page.

Verifier's note: The transfer page and the department policies page show no last-updated date on the live site. Only the 4Y-Trad-Calc PDF was checked live; the note on 4Y-Eng-Calc-CY-26.pdf and the ME-EN-1010 plan comes from the saved copy. The 'second grade counts' part overlaps with finding 0.

HIGH OUTDATED OWNER: ELECTRICAL & COMPUTER ENGINEERING UNDERGRADUATE ADVISING

ECE's 2017 'Policy Handbook for Undergraduate Programs' is still linked and contradicts current third-attempt and Monitoring List rules

> "may only be attempted twice… Additional repeats beyond the second attempt are not permitted"; "probationary status shall have twelve (12) months to increase both… GPAs above the requisite 2.50"
> www.ece.utah.edu/policy-handbook/ · updated 2017-11-17

> “Lists "Policy Handbook for Undergraduate Programs" beside "Undergraduate Monitoring List and Processes" and "3rd Attempt Petition".”
> www.ece.utah.edu/department-forms/ · updated 2026-05-13 (saved copy)

> "a third attempt may be approved for credit towards the ECE degrees."
> www.ece.utah.edu/3rd-attempt-petition/ · updated 2026-05-13

> "Assignment to the ECE Monitoring List will prohibit registration for Upper Division ECE classes without the approval of an Undergraduate Advisor."
> www.ece.utah.edu/monitoring-list/ · updated 2026-10-15

> “ECE's current pages allow a third attempt by petition and handle low GPA through the Monitoring List. The college Semester Guidelines say: "A third attempt requires department approval".”
> Official source: www.ece.utah.edu/3rd-attempt-petition/

Why it matters

A student who has failed a course twice may believe a third attempt is barred. A student below 2.5 may expect a 12-month probation followed by dismissal instead of the Monitoring List process.

Suggested fix

Remove the 2017 handbook from Department Forms, or rewrite it to match the 3rd Attempt Petition and Monitoring List pages and the college repeat policy.

Verifier's note: The live Policy Handbook page shows no date (2017-11-17 comes from the saved copy). The full 3rd-attempt sentence is narrower: "If extenuating circumstances or a non-academic reason has prevented a student from completing a course successfully within two attempts, a third attempt may be approved for credit towards the…

HIGH OUTDATED

OWNER: COLLEGE WEB TEAM (MAJORS PAGE) AND MECHANICAL ENGINEERING ADVISING (MINORS PAGE)

CS minor requirements on the Mechanical Engineering and college pages are outdated (3.0 GPA rule, 2021-22 handbook link, 'four minors')

> "A minimum grade of C- or better in each course and a 3.0 GPA (overall and within the pre-minor classes) is required in order to apply to the CS minor."
> www.mech.utah.edu/academics/undergraduate/current-students/academic-minors/ · updated 2022-11-17

> "The College of Engineering offers four minors." The computer science minor's "Learn More" link opens handbook.cs.utah.edu/2021-2022/Academics/minor_cs.php
> www.price.utah.edu/majors-in-engineering · updated 2025-08-27

> “CS Minor 26-27 sheet: "Must get a B- or higher in CS 2420 and a C or higher in MATH 1210". It sets no GPA minimum. cs.utah.edu/minors: "The Kahlert School of Computing offers minors in Artificial Intelligence and Computer Science."”
> Official source: www.cs.utah.edu/wp-content/uploads/2026/07/CS-Minor-26-27.pdf

Why it matters

A student with a C- in CS 2420 would think they qualify, but CS requires a B-. A student under 3.0 may not apply at all. The college page leaves out the AI minor and sends students to a 2021-22 handbook.

Suggested fix

Update or remove the CS bullet on the ME minors page and link cs.utah.edu/minors. On the college page, point the CS minor link to cs.utah.edu/minors and update the list and count of minors.

Verifier's note: Neither the ME minors page nor the college majors page shows a date on the live site; 2022-11-17 and 2025-08-27 come from the saved copy. The ME page's CS link goes to http://www.cs.utah.edu/undergraduate/program/. The B- rule was read from the saved copy of the 26-27 sheet (uploaded July 2026), which the live minors…

> www.mech.utah.edu/ · updated 2026-01-29

> "If you need to access an older flowchart, please visit the advising page to speak with an advisor." [same 404 advising link]
> www.mech.utah.edu/academics/undergraduate/flowcharts/ · updated 2026-10-12

> "Any course being transferred must be approved via the Course Articulation Form." [the form is on forms.mech.utah.edu, whose hostname does not resolve (DNS ENOTFOUND, checked live today)]
> www.mech.utah.edu/academics/undergraduate/current-students/department-policies/ · updated 2026-09-24

> "If you think you took a course that should fulfill a Mechanical Engineering major requirement, you can fill out our transfer course articulation form." [forms.mech.utah.edu; this page's 'academic advisor' link also returns 404]
> www.mech.utah.edu/academics/undergraduate/undergrad-faq/ · updated 2026-01-28

> "If you are an incoming first year or transfer student, please consult our Orientation Advising page for instructions on meeting with your advisor" [Orientation Advising link /orientation-live-sessions returned 404 in today's scan]
> www.mech.utah.edu/undergraduate-advising/ · updated 2026-10-01

> "Coordinate with your advisor or the other department's advisor for more information." [the 'advisor' link goes to the same 404]
> www.mech.utah.edu/academics/undergraduate/current-students/tech-electives/ · updated 2026-10-05

Why it matters

Students can't book advising from the department homepage or from six other pages. The policy page requires a form for transfer credit, but the form's host does not exist. The same 404 advising link also appears on the Learning Community, Future Transfer Students, Orientation and Current Students pages, and Orientation Resources uses the 404 orientation link.

Suggested fix

Point every advisor link to the live advising page https://www.mech.utah.edu/undergraduate-advising/, or add a redirect from /academics/undergraduate/undergraduate-advising/. Replace every forms.mech.utah.edu link (course articulation form, co-op application, technical elective petition, permission code request, which BME's Other Department Class Codes page also uses) with the forms' current location. Fix the Orientation Advising link.

Verifier's note: Remove the advising-link part. Every page links https://www.mech.utah.edu/academics/undergraduate/undergraduate-advising/ with a trailing slash, and that URL loads the Undergraduate Advising page live. Only the version without the slash returns 404, and that is the version the scan checked, because audit/scan.py…

> "For further advisement, please contact our program's Graduate Student Coordinator." [link goes to /online-masters/online-masters-faculty-and-staff/ (404); this page's other coordinator links correctly go to /advisors/. Checked live today]
> www.ece.utah.edu/grad-admissions/ · updated 2026-07-10

> "A student must meet with the Graduate Student Coordinator and complete the Program of Study Form prior to their final semester of study." [form link /graduate-forms/ returned 404 live; 'Downloadable Forms' buttons use the same link]
> www.ece.utah.edu/graduate-programs-in-ece/phd-degree/ · updated 2026-01-12

> "For more information, read Rules for Outside Member Necessities." [/graduate-forms/phd-supervisory-committee-form/rules-for-om/ returned 404 live; 'Remote learning only' links to /online-masters, also 404 live]
> www.ece.utah.edu/graduate-programs-in-ece/ms-degree/ · updated 2026-03-31

> "Meet with the Graduate Student Coordinator to review MS degree requirements and verify your BS/MS degree plan." ['BS/MS degree plan' goes to /graduate-forms (404)]
> www.ece.utah.edu/bachelors-to-masters/bs-ms-program/ · updated 2025-08-13

> "We also encourage students to consider meeting with the Graduate Student Coordinator" [both coordinator links go to the 404 online-masters staff page]
> www.ece.utah.edu/graduate-students/students-in-industry/ · updated 2026-01-14

Why it matters

MS, PhD and BS/MS students can't reach the forms they must file, such as the Program of Study before the final semester, or the rules for supervisory-committee outside members. Admitted and working students are pointed to a dead contact page for the coordinator.

Suggested fix

Restore or redirect /graduate-forms/ and its rules-for-om subpage, or point the links at wherever the forms now live. Point every 'Graduate Student Coordinator' link to /advisors/. Remove or replace the /online-masters links.

Medium and low severity

Outdated or confusing, but unlikely to cause a wrong decision. The web version of this report expands each row to show the quoted evidence.

Admissions, costs, scholarships and financial aid

	PROBLEM	OWNER	SUGGESTED FIX
medium	**Kahlert School of Computing graduate cost page still quotes Fall 2022 tuition-benefit levels and a 2022 differential fee; tuition page labels COA 2022-2023** www.cs.utah.edu/graduate/prospective-students/admissions/financial-information/	Kahlert School of Computing graduate admissions / web editor	Retire the Financial Information page or redirect it to 'Financial Support and Costs', and link to the Graduate School TBP page and the Bursar schedules instead of repeating dollar amounts. Change the COA link text on Tuition & Housing so…

	PROBLEM	OWNER	SUGGESTED FIX
medium	**Graduate applicants told to use 'ApplyYourself'; the same departments' other pages say Slate** www.che.utah.edu/future-graduate-students/	Graduate advising in Chemical Engineering, Mechanical Engineering, and MSE	Replace ApplyYourself with Slate, or say 'the University's online graduate application', and update the step-by-step instructions on the four pages.
medium	**MSE admissions page shows a passed Fall 2026 fee-waiver deadline and mixed December/January application deadlines** mse.utah.edu/admissions/	MSE graduate advising	Post the Fall 2027 fee-waiver deadline and make the English-proficiency note use the same deadline as the table (January 15), or label December as a recommended funding date.
medium	**Admissions and financial-aid links on future-student pages return 404** www.price.utah.edu/financial-aid	College web team (financial-aid page); BME, CS, Mechanical and MSE web editors	Point the links to the current Admissions and Financial Aid URLs, such as /apply/freshman-students/, the Financial Aid cost-of-attendance page and the current international/I-20 page.
medium	**Third Party Scholarships list, linked from the main scholarships page, shows only 2022–2023 deadlines** www.price.utah.edu/scholarships/third_party_scholarships	PCE Student Services (scholarships), with the college web team	Refresh the list for the 2026-27 cycle, or remove the dated entries and the links to them until the 'List of Scholarships Coming Soon!' replacement exists.
medium	**College transfer page lists undated Transfer Information Sessions from an old cycle** www.price.utah.edu/students/transfer-students	College recruitment / PCE Student Services, with the college web team	Post the 2026-27 transfer session dates with years, or point the page to the info-session page and remove the old list.
low	**ChemE graduate application fees still labeled 'Starting January 1, 2021', with a domestic PhD waiver code that may be from last cycle** www.che.utah.edu/future-graduate-students/	Chemical Engineering graduate advising	Remove 'Starting January 1, 2021' and confirm or update the domestic PhD waiver code for the Fall 2027 cycle.
low	**Future-student pages still say the U is in the Pac-12 ('Most affordable Pac-12 institution')** www.che.utah.edu/future-graduate-students/	ChemE, Mechanical, Civil and ECE web editors	Remove the Pac-12 references, or update them to the Big 12, and drop or re-source the 'most affordable' cost claim.

Academic calendar, events and recurring programs

	PROBLEM	OWNER	SUGGESTED FIX
medium	**Upcoming college events are missing from the events calendar: Engineering Day (known issue, still present), info sessions and Fall Design Day** www.price.utah.edu/engineering-day	College calendar editor, with College outreach/recruitment and Mechanical Engineering…	Add Engineering Day (Nov 14, 2026), the three virtual info sessions and Fall Design Day (Dec 8, 2026; Spring Apr 22, 2027) to the Trumba calendar with links to their pages. Agree with outreach and departments that new public events go on…
medium	**Engineering Day registration is still closed three weeks before the event, and the page's hours disagree with its schedule** www.price.utah.edu/engineering-day	College outreach/recruitment team (Engineering Day organizers) and College web team	Open registration, or state when it opens and whether walk-ins are welcome. Keep one schedule, and set the end time to cover lunch and the 12:30 campus tours.
medium	**Mechanical Engineering Fall Design Day page gives hours of 10am to 3pm but schedules the robot competition until 4pm** www.mech.utah.edu/design-day-1/	Mechanical Engineering (Design Day coordinator)	Confirm the actual hours and make the header and session times agree. Then add the event to the college calendar.
medium	**Summer Camps page still says "Register Today!" for Hi-GEAR camp dates that passed in summer 2026, with no year shown** www.price.utah.edu/k12/summer-camps	College K-12 outreach team	Mark the 2026 camps as finished and replace "Register Today!" with when 2027 dates and registration will be announced. Always include the year in camp dates.
medium	**STEM Career Fair Boot Camp page still advertises past sessions whose weekdays match 2024, under a "2026" heading with location TBD** www.price.utah.edu/stem-career-fair-boot-camp	College student success / career programs team	Remove or archive the past sessions and turn off registration. Post the next boot camp's confirmed dates (with year), place and times when they're set.
medium	**ECE "New Graduate Student Resources" page still shows the Fall 2024 orientation with an RSVP request** www.ece.utah.edu/graduate-orientation/	ECE graduate advising	Replace the block with the Spring 2027 (and later Fall 2027) orientation date, time, room and RSVP link, or with "details will be emailed to admitted students" and a contact.

	PROBLEM	OWNER	SUGGESTED FIX
medium	**Recurring opportunity pages still present past cycles as current (MSE REU, TREU, Fellowships workshop, ME Alum of the Year)** mse.utah.edu/reu/	MSE (ReUSE REU director); College web team / Kahlert School (TREU); College Fellowships…	For each page, post the current cycle's dates and deadline, or say the program is not running this year. On the Fellowships page, replace the 2016 workshop with this fall's GRFP workshop or a link to the calendar.
low	**Past event pages still look upcoming or keep registration open (MSE open houses, ECE Chair's List dinner, Kahlert Distinguished Lectures)** mse.utah.edu/open-house/	MSE web editor; ECE web editor; Kahlert School of Computing web editor	Close the registration forms and add a "this event has passed, next one in fall 2027" note, or unpublish the pages. Update the Kahlert Distinguished Lecture Series page with 2025-26 and 2026-27 speakers or link to the current seminar…

Advising, people and contact information

	PROBLEM	OWNER	SUGGESTED FIX
medium	**Civil & Environmental Engineering graduate advisor is a different person on almost every page** www.price.utah.edu/academic-advisors	Civil & Environmental Engineering graduate program, with the College web team for the…	Civil should decide who advises graduate students and in which room, then update the graduate advising page (full name), the staff page, the handbook contact page and the college directory together. Relabel the graduate page's question box…
medium	**ChemE undergraduate advisor: orientation page, handbook and directory still give different answers (known issue, changed form)** www.price.utah.edu/academic-advisors	Chemical Engineering advising, with the College web team	In the college directory, change Worthley's email to cheundergrad@utah.edu or his staff address. Remove 'Emily' from the orientation page. Update the handbook's advisor page now that a name is posted.
medium	**Materials Science advisor named 'Chloe Mitchell' on the orientation page; MSE lists Valerie Del Plain, whom the college also lists for Civil** www.price.utah.edu/orientation-and-registration	College web team, checked with MSE and Civil undergraduate advising	Replace 'Chloe Mitchell' with Valerie Del Plain on the orientation page; it also appears a second time, under the ECE section. Add her email to the college directory. Ask Civil whether she advises Civil/Construction students, and remove…

	PROBLEM	OWNER	SUGGESTED FIX
medium	**Kahlert School of Computing advisors: college directory lists a graduate advisor, an email and rooms that CS pages don't** www.price.utah.edu/academic-advisors	College web team, checked with Kahlert School of Computing advising	Change Riley's email in the college directory to grad-advisors@cs.utah.edu. Confirm whether Allen Hill advises graduate students and update whichever page is wrong. Correct Lane's and Young's rooms in the college directory.
medium	**ME graduate advising: Director of Graduate Studies and advisor rooms/emails differ across three pages; John Bolke missing from the college list** www.price.utah.edu/academic-advisors	Mechanical Engineering graduate advising, with the College web team	ME should confirm current rooms and fix its staff directory (Mareddy). The college directory should then match ME's graduate advising page and add John Bolke.
medium	**ECE advisors' rooms and phone differ between the ECE advisors page and the college directory (known issue re-checked)** www.price.utah.edu/academic-advisors	College web team, checked with ECE advising	Update the college directory's rooms for Leopold (MEB 2266-B), Porter (MEB 2266-A) and Rowberry (MEB 2262), and add Leopold's phone.
medium	**BME's early-commencement contact email is misspelled** www.bme.utah.edu/undergraduate-current-students/	Biomedical Engineering web editor	Change the link and text to Elaine Rydberg, elaine.rydberg@utah.edu.
medium	**ME prospective-student advising note still refers to students admitted for Spring–Fall 2026** www.mech.utah.edu/academics/undergraduate/future-students/prospectivestudentadvising/	Mechanical Engineering undergraduate advising	Make the note term-neutral ('Admitted students meet their advisor at Orientation') or update it to the 2027 terms.
medium	**CS handbook's advising pages are unreachable today, and they point to a last-name list that doesn't exist** handbook.cs.utah.edu/2024-2025/CS/Academics/advising.php	Kahlert School of Computing undergraduate advising / handbook editor	Restore access to handbook.cs.utah.edu, or point the Data Science page at the CS advisor page. Remove the 'based on their last name (see below)' sentence from the handbook advising pages (CS, DS, SD).

	PROBLEM	OWNER	SUGGESTED FIX
low	**ChemE graduate advisor's email and office differ between the college directory and ChemE's staff page** www.price.utah.edu/academic-advisors	College web team, checked with Chemical Engineering graduate advising	Update the college directory entry to wanda.brown@utah.edu and 3290 F MEB.

Academic policies, requirements and degree plans

	PROBLEM	OWNER	SUGGESTED FIX
medium	**CS undergraduate handbook is still the 2024-25 edition, the handbook site refused connections today, and current CS pages still send students there** www.cs.utah.edu/undergraduate/academic-programs/undergraduate-academic-program-overview/data-science/	Kahlert School of Computing undergraduate advising and web team	Host the Time Audit Worksheet and any full major status instructions on cs.utah.edu and update the links. Either label the handbook as the 2024-25 archive or publish a current edition. Fix the Data Science FAQ links.
medium	**Chemical Engineering graduate pages link the 2022-23 and 2025-26 handbooks although a 2026-27 handbook is posted** www.che.utah.edu/future-graduate-students/	Chemical Engineering graduate advising / department web editor	Point every Graduate Handbook link on both pages to the 2026-27 PDF. If older editions must stay online, put them on a labeled archive page.
medium	**Civil Engineering admissions page sends transfer students to the 2024-25 flowchart and articulation guide** www.civil.utah.edu/undergrad/admissions/	Civil & Environmental Engineering advising / department web editor	Link the admissions page to the Flowcharts page, or to the current flowchart and articulation guide.
medium	**Unlinked 2013 Chemical Engineering 'Major Status Form' page still public with a C- minimum the handbook rejects** www.che.utah.edu/forms/major_status_application/	Chemical Engineering department web editor / advising	Unpublish the page or redirect it to /ugguide.

Broken, stale, leftover and unreadable pages

	PROBLEM	OWNER	SUGGESTED FIX
medium	**ME graduate handbook: Qualifying Exam Handbook, Supervisory Committee and Leave of Absence links are dead** www.mech.utah.edu/grad-handbook/program-requirements/phd-program-requirements/	Mechanical Engineering graduate advising	Republish the Qualifying Exam handbook and fix all three links to it. Point the committee link at the Graduate School's current supervisory committee page and the leave form at the Registrar's current forms page. Fix the certificate link.
medium	**Engineering Floor housing instructions point to a dead Housing URL (known, still present)** www.price.utah.edu/students/current/engineering-floor	College web team (student success), with the ME web editor	Replace the URL with Housing & Residential Education's current application page (confirm it with Housing) and update the Mechanical Engineering quick link to the current Engineering living-learning community page.
medium	**College pages for prospective and current students link to admissions, orientation, advising and support pages that have moved** www.price.utah.edu/financial-aid	College web team	Replace each link with the central office's current page: Admissions first-year apply, Testing Center math placement, Orientation first-year, Academic Advising Center pre-professional and resources pages, Honors advising, Writing Center…
medium	**Links to confidential victim-survivor advocacy and the Code of Student Rights return 404** www.price.utah.edu/students/academic-affairs/advising-petitions	College web team (academic affairs pages); Kahlert School of Computing web editor	Point the advocate links to the Center for Campus Wellness's current victim-survivor advocacy page. Point the student rights links to the current regulations.utah.edu page for Policy 6-400. The Mechanical Engineering misconduct page uses a…
medium	**Email addresses linked without 'mailto:' open 404 pages instead of email** mse.utah.edu/department-key-request/	MSE, Civil, ECE and College web editors	Add 'mailto:' to each href. Confirm Joy Walker's room on the key-request page against the staff page.
medium	**MSE homepage 'Click Here' buttons for Undergraduate and Graduate information return 404** mse.utah.edu/	MSE web editor	Point the Graduate button to the live graduate page (e.g. https://mse.utah.edu/msegrad/) and the Undergraduate button to the current undergraduate program page, or add redirects.

	PROBLEM	OWNER	SUGGESTED FIX
medium	**'Which Engineering Major Should I Choose?' PDF still returns 404 (known, still present)** www.price.utah.edu/majors-in-engineering	College web team (recruitment and outreach)	Re-upload the presentation (or a current version) and update all three links, or remove them. Update the CS links on the majors page to the current CS pages.
medium	**Student organization links go to a missing directory, while 2012-2018 '-dnu' club pages are still public (known part still present)** www.price.utah.edu/future/faq	College web team	Point the links (or a redirect) to the live directory https://www.price.utah.edu/student-organizations, and unpublish or redirect everything under /student-organizations-dnu/.
medium	**Chemical Engineering four-year and five-year plans in the Undergraduate Guide are images only (known, still present)** www.che.utah.edu/wp-content/uploads/2026/08/CH-EN-UG-Guide-Handbook-2025-2026.pdf	Chemical Engineering undergraduate advising	Rebuild Tables 1 and 2 as real tables (tagged PDF) or add a text version. When the 2026-2027 guide is published, link it and keep the old one on an archive page.
medium	**BME graduate track pages link to removed M.S. and Ph.D. program pages** www.bme.utah.edu/education/graduate-studies/bioinstrumentation-graduate-track/	BME graduate advising, with the BME web editor	Point the links to the current graduate program overview and the 2026 BME Graduate Handbook, and retire or redirect the old /education/graduate-studies/ pages if the newer track pages replace them.
medium	**Civil Engineering 'Ask a Question' button on graduate admissions and program pages returns 404** www.civil.utah.edu/graduate/civil/admissions/	Civil & Environmental Engineering graduate admissions / web editor	Restore the request-info form, or point the button to the graduate advising contact.
low	**Test, draft and outdated duplicate pages are public on department and college sites** www.civil.utah.edu/sample-page/	Each site's web editor (MSE, Civil, ECE, ChE, BME, ME), plus the College web team for the…	Unpublish or redirect these pages, starting with the MSE template-test and met-e-ms-program pages and the Civil sample page. Keep mse.utah.edu/met-e-ms-program-2 and bme.utah.edu/anna-2, which are the current, linked pages.

From the automatic scan

Candidates from the scan of our saved copy. The findings above already include the ones that matter most; these lists are for whoever cleans up the sites.

How this was made

An automatic scan of our saved copy of the sites listed candidates: old pages, passed dates shown as upcoming, image-only PDFs, leftover pages, and live link checks (10 seconds apart per site; the 50 most-linked targets per site). Five agents then cross-checked admissions and costs, the academic calendar and events, advising contacts, policies and degree plans, and broken or stale pages against the live sites and official sources. A second agent per topic re-checked every finding live and tried to refute it: 0 findings were refuted and left out, and 2 reported under two topics were merged. The audit read the sites only and changed nothing in the assistant. See docs/SITE_AUDIT.md in the repository.

Not checked this time

- **Admissions, costs, scholarships and financial aid:** WUE: no college or department page in the saved copy mentions the Western Undergraduate Exchange, so there was nothing to compare with financialaid.utah.edu. Worth asking whether the future-student pages should mention it.; BME graduate page: I-20 funds "minimum of $52,667", "University deadline of April 1" and "$30 late fee" (also a $30 late fee on the CS Required Supporting Documents page). The Graduate School says programs set their own deadlines, and I didn't find an official I-20 amount or late-fee page within the fetch budget.; Mechanical 'Why the U' claim "Possibility for out of state students to gain residency within one year!": the Admissions residency landing page doesn't state the undergraduate rule, and the undergraduate residency subpage was not fetched (budget used up).; Mechanical grad Financial Information says tuition benefit isn't granted below "$5,000 of support for the semester". The Graduate School minimum-support page shows only a 100% level ($10,750); I didn't confirm whether partial-benefit tiers still exist.; BME Graduate Handbook 2026-27 says GRE scores "are generally required" while the BME admissions page says applications "may be considered without GRE scores". Seen in the saved copy only, not checked live, so left out of the GRE finding.; ECE nonresident (~$15.5k), online (~$10.5k) and WRGP (~$8k) per-term estimates, and WRGP eligibility for ECE master's: not compared with the nonresident Bursar schedules.; Mechanical grad deadlines table gives an international Fall deadline of 1 January but says applications after January 15 'may not be considered'. Minor, not reported.; price.utah.edu/financial-aid loan range "$1,000 to $10,00" is a typo for $10,000 (the scholarships page says $10,000). Skipped as a typo.; Leftover page mech.utah.edu/academics/undergraduate/financial-aid-scholarships-2/ (2012 and 2017-18 scholarship deadlines) is left to the broken/stale-pages topic.; ChemE Masters page (ApplyYourself) and Civil/ECE Pac-12 pages were confirmed from the saved copy only, not fetched live.; The 30-request WebFetch budget is used up. One request (admissions.utah.edu/deadlines/) returned 404 and one redirected, so a few official checks used the college's own current pages as the reference.
- **Academic calendar, events and recurring programs:** Registrar Summer 2027 calendar, so the Civil handbook's summer 2027 column was not compared; Registrar's or Graduate School's graduation page for a late-application option after January 22 (the finding relies on the Registrar's academic calendar deadline); Engineering Day and info-session registration forms (admin.coe.utah.edu), so whether registration actually works was not checked; Department event listings for ChE, Civil, CS and BME, beyond the pages above, for other upcoming events missing from the college calendar; Calendar event descriptions with internal time conflicts on past events (e.g. GREW NSF

GRFP workshop listed 12-1pm, description says 4-5pm; STEM Safety Day), skipped because the events have passed; Scan leftover event pages not verified live: BME Canyons conferences 2007-2010, Order of the Engineer registration (2017), Freshman Scholarship Luncheon (2023), RSVP (2023), Stanford and EAA alumni dinners (2018), ECE FuSe workshops (2024), USPE 2026 conference, Mech external faculty positions (2019); Scholarship and admissions deadline pages in the scan (Third Party Scholarships 2022, SHPE 2015, Civil and ECE grad admissions), left to the admissions and costs topic; ChE and BME graduate handbooks (2025-2026) for embedded calendars; WebFetch budget: 25 of 30 requests used, so some low-priority pages were checked only in the saved copy and were left out of the findings

- **Advising, people and contact information:** The live content of handbook.cs.utah.edu: connection refused on 2026-10-21. I also didn't check whether a 2025-26 or 2026-27 CS handbook exists; the last crawl found 2024-2025 as the newest.; Booking systems behind login (Navigate/EAB PAL, Outlook Bookings, Acuity, Calendly): checked only that the links exist, not that they book the right advisor.; Whether these addresses deliver: u-number/@umail addresses in the college directory, grad@mech.utah.edu, chemeng.utah.edu addresses, grad-advisor@cs.utah.edu.; The civil 2026-27 graduate handbook (MCE 2008 room) and the ME orientation-resources page were checked only in the saved copy, not live.; ChemE's old Contact Us page: the 2013 saved copy lists Tracey Farnsworth and Geoff Silcox for advising and gradprogram@che.utah.edu, but the live fetch showed only the address and phone, so not reported.; The BME erin and anna-2 booking pages' 'Back to Undergraduate Student Resources page' links, which point at a WordPress preview URL in the saved copy: not checked live.; Faculty directories, research-staff listings and department main-office phone numbers beyond the contact pages listed: not compared exhaustively.; The orientation page's transfer scholarship block ('for students starting in Spring 2024', Opens September 21, Closes December 13): out of this topic, left for the scholarships/dates review.; Christine Nguyen is listed as an ME advisor with only a @umail address and isn't in ME's staff directory. The pages agree she takes email only, so not reported as a disagreement.
- **Academic policies, requirements and degree plans:** handbook.cs.utah.edu live: it refused connections three times on 2026-10-21, so CS handbook content is from the saved copy of 2026-10-14; Credit totals on image-heavy plans whose extracted text is scrambled: MSE 2025-26 four-year plan and BS/MS flowchart, ME CY25/CY26 flowcharts, ECE 2025-26 and 2026-27 CE/EE flowcharts, BME flowcharts, ChE plans on /ugplans (vstem.org); ECE's current undergraduate admission GPA: no current ECE admissions page was in the saved copy, and the WebFetch budget was used up; Graduate policy pages in detail: ME grad-handbook pages last updated 2023 (Minimum GPA, Time Limits, Transfer Credits), Civil 2026-27 graduate handbook (p.62 image-only), BME and MSE graduate handbooks; Undergraduate certificates (Robotics, Engineering Entrepreneurship, Data Science certificate) and the Nuclear and Metallurgical Engineering minors; ME Honors B.S. page (2017), including its 3.5 GPA claim, not checked against the Honors College; Fourth-attempt approval path: the General Catalog page does not address fourth attempts, so the college Semester Guidelines were used; Live check of ECE Department Forms, ECE Monitoring List and cs.utah.edu/repeating-courses: these are quoted from saved copies dated 2026-05-13, 2026-10-15 and 2026-10-07; Advisor names and contacts in handbooks (for example the ChE handbook naming a Director of Undergraduate Studies, and the ME minors page naming an advisor), left to the advising and contacts topic
- **Broken, stale, leftover and unreadable pages:** WebFetch budget (30) used up. Several supporting links are reported from today's live scan (scan.json dated 2026-10-21) rather than a separate WebFetch: Mech supervisory-committee, leave-of-absence and systems-engineering; most college Student Resources links; Accuplacer; orientation; Civil and BME secondary pages.; About 62 dead_links ending in a curly quote (” or ″), mostly ECE

pages (gradschool, ISSS, registrar, faculty profiles), are scanner false positives. Unrendered page-builder shortcodes in the WordPress API text add the quote to the URL. The underlying URLs were not checked; ECE's ISSS and gradschool links on the financial-assistance, payroll and orientation pages deserve a second look.; BME /profile/?unid=… links and the catalog.utah.edu 403s were flagged because the scanner drops query strings. They are not reported.; About 150 dead_links on research, lab, faculty-profile, news-archive, conference and BME 'Lifestyle Highlights' pages were not reported. Examples: my.eng.utah.edu/~user, uuhsc.utah.edu timeouts, brain.utah.edu, bioen.utah.edu.; udine.bioen.utah.edu/permissioncodes (BME 'Request a Permission Code' on the Education, Graduate Studies and Class Schedules pages) refused the connection today. Reporting it needs a check from on and off campus.; handbook.cs.utah.edu refused the connection today, but our sync reached it on 2026-10-14. Not checked: the CS and SD GAMES flowchart PDFs (image-only page 2), Capstone_Spring_2019.pdf in the 2024-2025 CS handbook, and whether the saved copy's 2024-2025 handbook is still current.; ChE web academic plans are hosted on vstem.org, outside utah.edu, so they were not fetched.; image_only_pdfs not reported. False positives: the Mech Data Science flowchart (page 1 has text in the live file), the ChE grad handbook page 1 (cover), the Civil grad handbook page 62 ('Notes') and the ChE UG guide page 41 (page number). Not reported as low impact: the Mech 'How to Use CIS' guide has 9 screenshot-only pages.; stale_pages: 532 of 559 are not linked from recently updated pages and were not reviewed. Of the 27 that are, none was compared against current policy. Examples: ECE Policy Handbook (2017) linked from Department Forms, Mech Graduate Program Declaration Form (2021), ChE MS/PhD supervisory committee pages (2021).; scan.json passed_dates (54) is outside this topic and was not reviewed.; The scanner left 1,153 less-linked targets unchecked.
